

MD ASRAF ALI

Lahan, Siraha, Madesh Pardesh, Nepal | +977 9817728125 | mdasrafali.work@gmail.com | mdasrafali.com.np

EDUCATION

RK University, India — B.Tech in Computer Engineering 2022 – 2026

CGPA 8.82 (First Class with Distinction)

J.S. Murarka Multiple Campus, Lahan — +2 Science 2020 – 2022

Sankalpa Vatika — SEE (10th) 2018

EXPERIENCE

Data Analyst Intern, M and MB Soft Tech — Kathmandu, Nepal 4 months

- Collected and cleaned data from multiple sources and performed exploratory data analysis (EDA) using Excel, SQL, and Python to identify trends and patterns.
- Built Power BI dashboards and reports to communicate insights and support decision-making; documented analysis processes for the team.

Freelance Full Stack Developer & Systems Administrator 2023 – 2025

- Delivered three end-to-end client web projects (consultancy platform, e-commerce site, business showcase site) using PHP, Laravel, and MySQL.
- Handled deployment, hosting, and database administration; managed the full cycle from requirements gathering to production support.

PROJECTS

- **Assu** — Developed a scalable e-commerce platform featuring product listings, user account management, order processing and admin account management
- **E-spot** — Built a full-featured consultancy web platform with user registration, meeting booking, and review submission modules.
- **Aklil Nursery** — Developed a PHP-based product showcase platform with integrated WhatsApp, email, and phone contact options, extending a local nursery business's reach to global customers.
- **Loan Performance and NPA Analysis** — Built five interactive Power BI dashboards with DAX to track loan portfolio performance, NPA trends, and collection efficiency, surfacing risk insights for business decisions.
- **Superstore Sales Dashboard** — interactive Power BI dashboard visualizing sales trends and customer behavior, with a 15-day sales forecast.
- **HR Analytics Dashboard** — Power BI tool for tracking attrition, recruitment, and engagement metrics across departments.
- **Best-Fit Clothing Size Recommender** — computer vision project estimating body measurements from photos to recommend clothing sizes.

SKILLS

Data & Analytics: Python (Pandas, NumPy, Matplotlib), SQL, Excel, Power BI/DAX, statistical & predictive analysis

Development: PHP, Laravel, MVC, RESTful APIs, MySQL, HTML/CSS/JavaScript, Flutter
